

I'm writing to request that you not expand the LPFM stations to have priority over current FM translator service. The primary station my household listens to is KLOVE.

KLOVE offers not only music to its listeners, but encouragement and news that dares to highlight good that happens as well as the not so good.

KLOVE provides a link for families that are seperated by circumstance, military duty, etc. because we all know we can be listening to the same thing and even pray together which helps us stay connected.

KLOVE also offers music that the entire family can listen to and there's never anything rated "R".

Our community needs the quality of radio that KLOVE offers.
